

# PENCHANT

*"A guitarist who can shred with the best of them or wrap us around his strings with a compelling and mesmerizing experience" says Carmen Allgood of ColoradoWave.com regarding Danny Masters.*

*Danny Masters Band 'Penchant' showcases their passion for music, bringing life to cover tunes that range from Led Zeppelin, Stevie Ray Vaughn, Sublime, STP, to Heart, Fleetwood Mac, Kelli Clarkson, Evanescence, and Pink. Danceable rock and blues expertly performed and always fresh makes this band perfect for clubs, parties, events and receptions. The Mile High city has enjoyed Danny Masters' signature guitar playing for ten years and is complimented by a player's player line up and superb vocals by Lori Gorklo to make any night a memorable one. Mainstay Greg Blankenship creates a solid bottom with five string bass lines, keys and pedals. Todd Bilsborough, on drums, brings style and technique to the rhythm section. Combining talent and experience with a great variety and selection, they know how to deliver. Danny Masters Bands' ever evolving originals are distinct and add an amazing edge to the overall experience. Four CDs of original music have been released including Blues, Rock, Acoustic, and Classical tunes you'll love. Danny's Master degree in Classical Guitar and extensive catalogue of material provides a wonderful addition to any wedding or holiday event. Penchant also performs an array of Led Zeppelin music and is currently developing a tribute show to the band that has inspired their style. Contact: Doug Tackett at:*
